

# SANYO Images<sup>®</sup>

## DATA SHEET

SANYO IMAGES is a software package designed to work with the VISIO "drag and drop" drawing package. It contains digital photographic images for all the CCTV equipment in the SANYO product range. Each product has been digitally photographed in high resolution then converted to the Visio stencil format. This allows the images to be dragged and dropped quickly and easily on to the drawing page. SANYO IMAGES includes CCTV equipment such as cameras, control equipment, VCRs and monitors..

Model numbers have been assigned to each image and prices can also be assigned to allow shape reports. The shape reports calculate the cost of a drawn system and list all the separate items of equipment which is used.

The Images display an exact image of the model and can be used to produce individual data-sheets. SANYO IMAGES is a perfect accompaniment to our Symbols software. SANYO IMAGES is ideal for CCTV professionals who regularly use SANYO equipment and want to produce quick, professional looking CCTV system drawings at low cost.

Hardware / Software	Requirements
PC & Display	486 33Mhz or higher with VGA or SVGA. Pentium recommended.
PC Ram	8 MB or above
PC Hard drive	280 MB or above free
PC Floppy drive	3.5" 1.44MB
